REPORT OF THE INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

TO THE MANAGEMENT OF BNP PARIBAS BANGKOK BRANCH

Opinion

We have audited the financial statements of BNP Paribas Bangkok Branch (the “Bank”), which comprise the statement of financial position as at December 31, 2017, and the related statements of profit or loss and other comprehensive income, changes in head office and other branches of the same juristic person’s equity and cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of BNP Paribas Bangkok Branch as at December 31, 2017, and its financial performance and its cash flows for the year then ended in accordance with Thai Financial Reporting Standards.

Basis for Opinion

We conducted our audit in accordance with Thai Standards on Auditing (“TSAs”). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Bank in accordance with the Federation of Accounting Professions’ Code of Ethics for Professional Accountants together with the ethical requirements that are relevant to our audit of the financial statements, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Thai Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so.

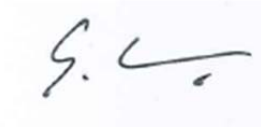

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with TSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with TSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Bank to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

BNP PARIBAS BANGKOK BRANCH
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2017

1. GENERAL INFORMATION

BNP Paribas Bangkok Branch (“the Bank”) is a segment of BNP Paribas which was incorporated in France (“the Head Office”). The address of BNP Paribas’ registration in Thailand, as a branch, is 29th Floor Abdulrahim Place, 990 Rama IV Road, Bangkok.

The Bank operates a Bangkok Branch. The Bank was granted a banking license by the Bank of Thailand on November 6, 1996.

2. BASIS FOR PREPARATION AND PRESENTATION OF THE FINANCIAL STATEMENTS

2.1 The Bank maintains its accounting records in Thai Baht and prepares its statutory financial statements in the Thai language in conformity with Thai Financial Reporting Standards and accounting practices generally accepted in Thailand.

2.2 The Bank’s financial statements have been prepared in accordance with the Thai Accounting Standard (TAS) No. 1 (Revised 2016) “Presentation of Financial Statements”, including the Procedures, Policies and Presentation in accordance with the Bank of Thailand (“BOT”) Notification regarding “the Preparation and Announcement of Financial Statements of Commercial Banks and Holding Companies of Financial Industry dated December 4, 2015”.

2.3 Thai financial statements have been prepared on the measurement basis of historical cost except as disclosed in the accounting policies.

2.4 Thai Financial Reporting Standards affecting the presentation and/or disclosure in the current year financial statements.

During the year, the Bank has adopted the revised and new financial reporting standards issued by the Federation of Accounting Professions which become effective for fiscal years beginning on or after January 1, 2017. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards, with most of the changes directed towards revision of wording and terminology, and provision of interpretations and accounting guidance to users of standards. The adoption of these financial reporting standards does not have any significant impact on the Bank financial statements.

2.5 Thai Financial Reporting Standards announced in the Royal Gazette but not yet effective

The Federation of Accounting Professions has issued the Notification regarding 56 Thai Financial Reporting Standards (TFRSs) that will be effective for the financial statements for the period beginning on or after January 1, 2018 onwards, which has been announced in the Royal Gazette on September 26, 2017. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards, with most of the changes directed towards revision of wording and terminology, and provision of interpretations and accounting guidance to users of standards.

In addition, the Federation of Accounting Professions has issued the Notification regarding Thai Financial Reporting Standard No.15 “Revenue from Contracts with Customers” which has been announced in the Royal Gazette on March 14, 2018 and will be effective for the financial statements for the period beginning on or after January 1, 2019 onwards.

The Bank’s management will adopt such TFRSs in the preparation of the Bank’s financial statements when it becomes effective. The Bank’s management is in the process to assess the impact of these TFRSs on the financial statements of the Bank in the period of initial application.

3. SIGNIFICANT ACCOUNTING POLICIES

3.1 Recognition of interest income

Interest income is recognized on accrual basis. Such income recognition is discontinued when reasonable doubt exists as to the timely collection or if payment of principal or interest is contractually over three months past due. Then the interest income is recognized when payment is received.

When income recognition is discontinued, the Bank reverses outstanding accrued interest income to the statement of profit or loss and other comprehensive income.

3.2 Recognition of interest expenses

Interest on borrowings and deposits are recognized as an expense on accrual basis.

3.3 Derivatives financial instruments

Derivatives financial instruments for trading purpose are recognized at fair values and net amount reported in the statement of financial position as assets or liabilities by the same counterparty and when the contracts have the same maturity date. Changes in fair values are posted to the statement of profit or loss and other comprehensive income.

Derivatives financial instruments for hedging are used for the purpose to manage the Bank’s exposures to market price movement using of derivatives. Gain or loss resulting from the change in fair values of contracts is recognized in accordance with the accounting treatment on hedged items. If hedged items are carried on an accrual basis, then hedging instruments carry the accrual consistently.

Hybrid instrument includes a non-derivative host contract and an embedded derivative. The Bank records the host contract applied accounting standards as the classification of the host contract. An embedded derivative is separated from the host contract and measured at fair values, if and only if:

1. The economic characteristics and risks of the host contract and the embedded derivative are non-closely related.
2. A separate instrument with the same terms as the embedded derivative would meet the definition of a derivative.
3. The hybrid instrument is not measured at fair values through the statement of profit or loss and other comprehensive income.

If an embedded derivative is not separated or in case there is no reliable fair values of embedded derivative, the Bank will record the hybrid instrument, applying accounting standards as the classification of the host contract.

Starting from January 1, 2010 onwards, the Bank has applied fair value option method for deposits and borrowings with embedded derivatives. The fair value changes are recognized in the statement of profit or loss and other comprehensive income.

3.4 Investments

Investments are initially recognized and eliminated on the trade date.

Basis of investment classification

The Bank classifies its investments into the following categories: trading, available-for-sale, held-to-maturity and general investment. Investments that are acquired principally for the purpose of generating a profit from short-term fluctuations in price are classified as trading investments. Investments intended to be held for an indefinite period of time, which may be sold in response to needs for liquidity or changes in interest rates, are classified as available-for-sale. Investments with fixed maturity that the management has the intent and ability to hold to maturity are classified as held-to-maturity. Investment in non-marketable equity securities are classified as general investment. Management determines the appropriate classification of its investments at the time of the purchase and re-evaluates such designation on a regular basis.

Carrying value of investments

Trading securities are carried at fair value, with differences between the carrying values and fair values being presented as unrealized gains or losses in the statement of profit or loss.

Available-for-sale securities are carried at fair values, less allowance for impairment in value (if any). Differences between carrying values and fair values are presented as unrealized gains or losses in the statement of other comprehensive income.

Held-to-maturity debt securities are carried at amortized cost, less allowance for impairment in value in the statement of financial position (if any).

Investments in non-marketable equity securities are classified as general securities and carried at cost less allowance for impairment in value (if any).

Fair values of debt securities, which are classified as trading and available-for-sale securities are calculated with reference to the last quoted bid prices at the close of business on the statement of financial position date. Fair values of marketable equity securities are calculated with reference to the quoted bid prices of the Stock Exchange of Thailand at the close of business on the statement of financial position date.

A test for impairment is carried out when there is a factor indicating that such investment might be impaired. If the carrying value of the investment is higher than its recoverable amount, the impairment loss is recognized to the statement of profit or loss and other comprehensive income.

On disposal of an investment, the difference between the net disposal proceeds and the carrying amount is recognized to the statement of profit or loss and other comprehensive income.

When disposing of part of a particular investment in debt or equity securities, the carrying amount of the disposed part is based on the first-in, first-out carrying amount of the total holding of the investment.

3.5 Loans and allowance for doubtful accounts

Loans are generally stated at the principal amounts outstanding.

The allowance for doubtful accounts is provided for risks of losses incurred on loans. The allowance is increased by provisions charged to expense and decreased by write-offs, net of recoveries. The estimated losses are based on collection experience and management's evaluation of the adequacy of the allowance for doubtful accounts, which evaluation encompasses consideration of the current status of individual debtors as well as debtors in general.

3.6 Troubled debt restructurings

The Bank records assets or equities received in settlement of debts at the lower of the fair value of the assets or equities, less estimated selling expenses (if any), or the amount of investment in receivables (including accrued interest income).

When the troubled debt restructuring involves modification of terms of receivables, the fair value of the investment in receivables after restructuring is based on the net present value of the expected future cash flows, discounted by the Minimum Lending Rates (MLR) prevailing at the restructuring date.

Losses arising from restructuring, less recorded allowance for doubtful accounts, are recognized in the statement of profit or loss and other comprehensive income when incurred.

Legal fees and other direct costs incurred because of the restructuring are expensed when incurred.

3.7 Leasehold improvement and equipment

Leasehold improvement and equipment are stated at historical cost less accumulated depreciation and impairment loss (if any).

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Bank and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. All other repairs and maintenance are recognized to statement of profit or loss and other comprehensive income during the financial period in which they are incurred.

Depreciation is calculated on the straight-line method over the estimated useful life as follows:

Leasehold improvement	5 years
Furniture and office	3 - 5 years

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the statement of financial position date.

The asset's carrying amount is written-down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gain or loss on disposal is recognized in the statement of profit or loss and other comprehensive income.

3.8 Intangible assets

Intangible assets are purchased computer software licenses are capitalized on the basis of the costs incurred to acquire and bring to use the specific software. These costs are amortized over their estimated useful lives 5 - 10 years.

Software maintenance costs are expenses as incurred.

3.9 Operating leases - where the Bank is the lessee

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases are recognized to the statement of profit or loss and other comprehensive income on a straight-line basis over the period of the lease.

3.10 Cash and cash equivalents

For the purposes of statement of cash flow, cash and cash equivalents include cash, interbank and money market items and net balance of inter-office accounts with the Head Office and other branches under the same juristic person's equity with initial maturity of three months or less.

3.11 Foreign currency translation

Transactions during the year denominated in foreign currencies are translated into Baht at the rates of exchange on the transaction dates. Monetary assets, liabilities and fund remitted into Thailand for maintaining assets under law at the statement of financial position date denominated in foreign currencies are translated into Baht at the exchange rates announced by the Bank of Thailand on that date.

Gains and losses resulting from translation are included in the statement of profit or loss and other comprehensive income.

3.12 Provisions

Provisions are recognized when the Bank has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognized for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognized even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognized as interest expense.

3.13 Employee benefits

Provident fund

The Bank has a define contribution plan in a provident fund for employee. The assets of which are held in a separate fund which is managed by the external fund manager. The provident fund is funded by payments from employees and by the Bank. Contribution to the provident fund is recognized to the statement of profit or loss and other comprehensive income in the year to which they relate.

Long-term employee benefits

The Bank set provision for long-term employee benefits which consisted of legal severance under the Labor Protection Act and long-serviced award. The liability in respect of employee's benefits is measured, using the projected unit credit method which is calculated by an independent actuary in accordance with the actuarial technique. The present value of the defined benefit obligation is determined by discounting estimated future cash flows using yield on the government bonds which have terms to maturity approximating the terms of related liability. The estimated future cash flows shall reflect employee salaries, turnover rate, mortality, length of service and others.

Actuarial gains or losses will be recognized in the statement of profit or loss and other comprehensive income in the period to which they are related.

3.14 Share-based payment

Share-based payment transactions are payments based the value of BNP Paribas's shares (Head Office). The Bank grants employees the deferred share-based or share price-linked cash settled compensation plans.

The expense related to these plans is recognized in the year during which the employee rendered the corresponding services. If the payment is explicitly subject to the employee's continued presence at the vesting date, the service is presumed to have been rendered during the vesting period and the corresponding compensation expense is recognized on a pro rata basis over that period.

3.15 Income tax expense

Income tax expense represents the sum of the tax currently payable and deferred tax.

3.15.1 Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the statement of profit or loss and other comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Bank's current tax is calculated using tax rates that have been enacted or substantively enacted by the statement of financial position date.

3.15.2 Deferred tax

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the statements of financial position and the corresponding tax basis used in the computation of taxable profit (tax base). Deferred tax liabilities are generally recognized for all taxable temporary differences, and deferred tax assets are generally recognized for temporary differences to the extent that it is probable that taxable profits will be available against which those temporary differences can be utilized. The carrying amount of deferred tax assets is reviewed at the statement of financial position date. Deferred tax asset shall be reduced to the extent that utilized taxable profits are decreased. Any such reduction shall be reversed to the extent that it becomes probable that sufficient taxable profit will be available to allow total or part of the asset to be recovered.

The Bank measures deferred tax assets and liabilities at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on tax rates that have been enacted or substantively enacted at the end of the reporting period.

Current tax assets and liabilities are offset when there is a legally enforceable right to set off the recognized amounts and the Bank and subsidiaries intend to settle on a net basis or to realize the asset and settle the liability simultaneously and when they relate to income taxes levied by the same taxation authority.

Income tax expense or income related to profit or loss are presented in the statement of profit or loss and other comprehensive income. For current income taxes and deferred taxes related to items recognized directly in other comprehensive income in Head Office and other branches of the same juristic person's equity in the same or different period, they will be recognized directly in other comprehensive income.

4. ADDITIONAL INFORMATION

4.1 Critical accounting estimates, assumptions and judgments

Estimates, assumptions and judgments are reviewed on an ongoing basis and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Fair value of financial derivative instruments

In determining the fair value of financial derivative instruments, the management has made judgment by using a variety of valuation techniques. The input parameters to the models used are taken from observable markets, and includes consideration of maturity, interest rate correlation and volatility, etc.

Impairment of loans and commitment and contingent liabilities

The Bank maintains an allowance for doubtful accounts and provision for contingent liabilities to reflect impairment of loans and off-statement of financial position items. They relate to estimated losses resulting from the inability of customers to make required payments. The allowance for doubtful accounts and provision for contingent liabilities are significantly impacted by the Bank's assessment of collaterals and/or future cash inflows. Such assessment being based on consideration of historical collection experience, financial position and performance, known identified instances of default and consideration of economics.

Provision for long-term employee benefits

The Bank has commitment on provision for long-term employee benefits to employee on reaching retirement age. The present value of employee benefit liabilities recognized in the statement of financial position is determined on the present value of estimated future cash outflows for staff that is nearly reach retirement age. The assumptions used in determining the net year cost for employee benefits includes the salary and years of services of respective employees which are payable in the future and discount rate.

Actuarial gain or loss are recognized in statement of profit or loss and other comprehensive income.

4.2 Capital risk management

The Bank's objectives when managing capital are to ensure that the Bank will be able to continue as a going concern while maximizing the returns to the Bank, the benefits of other stakeholders and complying with the Bank of Thailand rules of the capital fund.

5. FINANCIAL RISK MANAGEMENT

5.1 Financial risk factors

Risk management is key in the business of banking. At BNP Paribas, operating methods and procedures throughout the organization are geared towards effectively addressing this matter. The entire process is supervised primarily by the Group Risk Management Department (GRM), which is responsible for measuring and controlling risks at Group level. GRM is independent from the core businesses, business lines and territories and reports directly to Group Executive Management.

The risk categories reported by the Bank evolve in line with methodological developments and regulatory requirements.

5.1.1 Credit risk

Credit risk is the risk of incurring an economic loss on loans and receivables (existing or potential due to prior commitments) resulting from a change in the credit quality of the Bank's debtors, which can ultimately result in default. The probability of default and the expected recovery on the loan or receivable in the event of default are key components of the credit quality assessment.

Counterparty risk is the demonstration of credit risk in market, investment and/or payment transactions that potentially expose the Bank to the default risk of the counterparty. It is a bilateral risk on a counterparty with whom a transaction is entered into and of which the amount may vary over time, in line with market parameters that impact the value of the relevant market instrument.

The Bank adopts a Global Credit Risk Policy & Procedures ("Credit Risk Policy") that is detailed in accordance with the Bank of Thailand's Regulation. The credit risk policy provides guidance on credit risk management and also defines the responsibilities of each of the parties involved in credit risk management.

5.1.2 Market risk

Market risk is the risk of incurring an economic loss as a result of adverse changes in market parameters, whether directly observable or not. Observable market parameters include, but are not limited to, foreign exchange rates, interest rate, price of security and commodity, price of derivatives, and other parameters that can be directly inferred from them, such as credit spreads, implied volatility or implied correlation. Non-observable market parameters are those based on working assumptions such as parameters contained in models or based on statistical analysis.

The Group Risk Management (GRM)'s responsibility in terms of market risk management is to define, measure and analyze sensitivities and risk factors, and to measure and control Value at Risk (VaR) to ensure that all business activity complies with the approved limit.

The interest rate risk and the foreign exchange rate risk are the key market risks of the Bank.

- a. Interest rate risk arises from a change in interest rates to have an adverse effect on the value of the Bank's financial instrument or may cause volatility on net interest earnings or cost of the Bank in the current and future years.
- b. Foreign exchange rate risk is the risk that occurs from changes in exchange rates which may affect the value of the Bank's financial instruments or may cause volatility in the Bank's earnings or cost of funds (see Notes 8 and 18).

5.1.3 Liquidity risk

Liquidity risk is the risk of the Bank being unable to fulfill current or future foreseen or unforeseen cash or collateral requirements without affecting routine transactions or its financial position.

The Bank manages its liquidity position through a global liquidity policy approved by Group Executive Management and also complies with the Bank of Thailand's liquidity reserve regulations. The objective of the Group's liquidity management is to secure a balanced financing mix to support the Bank's development strategy, ensure that the Bank is always in a position to discharge its obligations to its customer, ensure that it does not trigger a systemic crisis solely by its own action, to comply with the standards set by the local banking supervisor, to keep the cost of refinancing as low as possible; and to cope with any liquidity crisis.

Group ALM Committee authorizes implementation of the liquidity risk management policy. Responsibility for implementing the policy at both central and individual entity level has been delegated to ALM-Treasury Committee. In addition, Group Risk Management (GRM) provides second-line control on risk indicators including regularly monitor the liquidity stress test.

A contractual maturity analysis for the significant monetary assets and liabilities as at December 31, are as follows:

6. FAIR VALUE OF ASSETS AND LIABILITIES

From January 1, 2015, the Bank adopted TFRS 13 regarding Fair Value Measurement.

The Bank measure fair values using the following fair value hierarchy based on the degree to which the inputs to the fair value measurement are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 Fair values are determined using directly quoted prices in active markets for identical assets or liabilities.
- Level 2 Fair values are determined using significant inputs other than quoted prices included within level 1, that are observable, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 Fair values are determined using valuation techniques for which significant inputs are unobservable.

A transfer between the hierarchy occurs when the source or level of observability of input data in fair value measurement has changed.

6.1 Financial instruments carried at fair value

Financial assets, financial liabilities and derivatives measured at fair value.

The fair value hierarchy of financial instruments and derivatives measured at fair value on a recurring basis as at December 31, are as follows:

	Unit : Thousand Baht		
	2017		
	Level 1	Level 2	Total
Financial Assets			
Derivative assets	-	16,760,136	16,760,136
Trading securities	-	3,111,423	3,111,423
Available-for-sale securities	-	12,876,341	12,876,341
Total financial assets	-	32,747,900	32,747,900
Financial liabilities			
Derivative liabilities	-	17,880,573	17,880,573
Financial liabilities designated at fair value	-	432,133	432,133
Total financial liabilities	-	18,312,706	18,312,706

There was no transfer between levels of the fair value hierarchy during the year ended December 31, 2017.

	Unit : Thousand Baht		
	2016		
	Level 1	Level 2	Total
Financial Assets			
Derivative assets	-	31,340,647	31,340,647
Trading securities	-	1,918,968	1,918,968
Available-for-sale securities	-	16,535,380	16,535,380
Total financial assets	-	<u>49,794,995</u>	<u>49,794,995</u>
Financial liabilities			
Derivative liabilities	-	35,233,555	35,233,555
Financial liabilities designated at fair value	-	434,741	434,741
Total financial liabilities	-	<u>35,668,296</u>	<u>35,668,296</u>

There was no transfer between levels of the fair value hierarchy during the year ended December 31, 2016.

The Bank determines Level 2 of recurring fair value measurement are as follows:

Level 2 fair values for debt securities is determined by using the Bond Yield Curve or the bid price from Thai Bond Market Association Government as of the reporting date. If not available, the Government Bond Yield Curve for the same period is used, adjusted by an appropriate risk premium.

Level 2 fair value of structure notes and the over-the-counter derivatives financial instruments is determined by using the valuation techniques incorporating observable market data. The Bank uses a variety of methods and makes assumption that based on market conditions existing at the end of the reporting period. These valuation techniques are primarily market and income approaches encompassing generally accepted models, such as the estimated discounted cash flows, are used to determine fair value of the financial instrument.

6.2 Financial instruments not measured at fair value

The following table analyses financial instruments not measured at fair value by the level in the fair value hierarchy into which the fair value is categorized as at December 31, are as follows:

	Unit : Thousand Baht		
	2017		
	Level 1	Level 2	Total
Financial assets			
Interbank and money market, net	-	4,400,774	4,400,774
Loans to customers and accrued interest receivable, net	-	7,824,606	7,824,606
Total financial assets	-	12,225,380	12,225,380
Financial liabilities			
Deposits	-	15,551,624	15,551,624
Interbank and money market, net	-	1,758,649	1,758,649
Total financial liabilities	-	17,310,273	17,310,273

	Unit : Thousand Baht		
	2016		
	Level 1	Level 2	Total
Financial assets			
Interbank and money market, net	-	5,343,079	5,343,079
Loans to customers and accrued interest receivable, net	-	5,854,117	5,854,117
Total financial assets	-	11,197,196	11,197,196
Financial liabilities			
Deposits	-	10,903,613	10,903,613
Interbank and money market, net	-	1,716,292	1,716,292
Total financial liabilities	-	12,619,905	12,619,905

The following methods and assumptions are used to estimate the fair value of financial assets and liabilities:

- Fair values of interbank and money market items are approximate to the carrying value.
- Loans to customers and accrued interest receivable are estimated the fair value based on the carrying amount net of allowance for doubtful accounts.
- Fair values of deposits are approximate to the carrying value.

7. CAPITAL FUNDS

7.1 Capital fund and assets maintained in Thailand under section 32 of the Financial Institution Act B.E 2551 as at December 31, are as follows:

	Unit : Thousand Baht	
	2017	2016
Total Asset maintained under Section 32	<u>9,556,349</u>	<u>9,952,597</u>
Total fund for maintenance of assets under Section 32 and net balance of inter-office accounts		
Net capital for maintenance of assets under Section 32	9,298,481	9,877,090
Net balance of inter-office accounts which the branch is the debtor to the head office and other branches located in other countries, the parent company and subsidiaries of the head office	<u>324,421</u>	<u>494,750</u>
Total	<u>9,622,902</u>	<u>10,371,840</u>
Regulatory capital fund before deduction	9,298,481	9,877,090
Deductible amount	<u>2,021</u>	<u>3,391</u>
Total capital fund	<u>9,296,460</u>	<u>9,873,699</u>
Total capital funds to risk assets ratio (%)	16.77	16.11
Bank of Thailand regulatory capital ratio requirement (%)	9.75	9.125
Capital after deducting capital add-on arising from Single Lending Limit *	9,296,460	9,838,963
Capital ratio after deducting capital add-on arising from Single Lending Limit (%)*	16.77	16.06

* Effective in January 2015

The Bank will disclose capital maintenance information as at December 31, 2017 in accordance with the Notification of the Bank of Thailand Re: Public Disclosure of Capital Maintenance Information for Commercial Banks on its web site at www.bnpparibas.co.th in April 2018.

On November 8, 2012, the Bank of Thailand has issued the new Notification regarding supervisory guideline on capital fund for the branch of foreign commercial bank to comply with global regulatory framework (Basel III) of Basel Committee on Banking Supervision (BCBS) which is effective by phase starting on January 1, 2013 up to January 1, 2019. The Bank of Thailand regulatory capital ratio requirement is 8.50% as at January 1, 2013 until reaching 11.00% in 2019. The capital adequacy is the initial implementation with the objective to improve the quality of the Bank's capital so as to be able to support the loss which may incur in the normal and crisis situation.

On August 1, 2016, the Bank increased the capital fund by borrowing fund from BNP Paribas Group amounting to USD 37.00 million, equivalent to Baht 1,295.00 million resulting in fund remitted into Thailand and the Bank has maintained this additional assets under section 32 in Bank of Thailand bonds (2017 : Nil).

7.2 Fund remitted into Thailand for maintaining assets under law

Movements in the value of fund remitted into Thailand for maintaining assets under law for the years ended December 31, are as follows:

	Unit : Thousand Baht	
	2017	2016
Beginning balance	9,907,825	8,629,467
Increased during the years (see Note 7.1)	-	1,295,000
Loss on exchange rate	(695,150)	(16,642)
Ending balance	<u>9,212,675</u>	<u>9,907,825</u>

8. INTERBANK AND MONEY MARKET ITEMS, NET - ASSETS

Interbank and money market items, net - assets as at December 31, are as follows:

	Unit : Thousand Baht		
	2017

As at December 31, 2017 and 2016, the Bank has outstanding balance of the bills of exchange with embedded derivative that are not designated at fair value to the financial institution amount of Baht 395 million.

20. FINANCIAL LIABILITIES DESIGNATED AT FAIR VALUE

Financial instrument designated at fair value are bills of exchange with embedded derivatives as at December 31, are as follows:

	Unit : Thousand Baht	
	2017	2016
Bills of exchange with embedded derivatives	432,133	434,741
Total	<u>432,133</u>	<u>434,741</u>

The bills of exchange with embedded derivatives carry fixed interest rates and/or the floating rate which refer to the fluctuation of the swap curve or other index. The Bank also has the right to early redeem the bill of exchange with embedded derivatives following to conditions specified in the agreements.

Proportion of contractual balance by counterparty as at December 31, are as follows:

	2017 (%)	2016 (%)
Financial institution	100	100
Total	<u>100</u>	<u>100</u>

21. PROVISIONS

Provisions as at December 31, are as follows:

	Unit : Thousand Baht	
	2017	2016
Provision for post-employment benefit	40,712	35,168
Provision for long-serviced award benefit	2,963	2,573
Total	<u>43,675</u>	<u>37,741</u>

22. LONG-TERM EMPLOYEE BENEFITS

Movements in the present value of the defined benefit obligation for the years ended December 31, are as follows:

	Unit : Thousand Baht	
	2017	2016
Beginning balance	37,741	32,283
Current service costs	4,977	4,682
Interest costs	1,129	977
Benefits paid	(172)	(201)
Ending balance	<u>43,675</u>	<u>37,741</u>

Actuarial loss from updated assumptions recognized in the other comprehensive income for the years ended December 31, are as follows:

	Unit : Thousand Baht	
	2017	2016
Included in retained earnings:		
As at January 1,	(5,554)	(5,554)
Recognized during the years	-	-
As at December 31,	<u>(5,554)</u>	<u>(5,554)</u>

Significant assumptions used in the actuarial calculation are summarized as follows:

	2017	2016
Discount rate	3%	3%
Future salary growth rate	5%	5%
Price inflation rate	3%	3%
Gold price inflation rate	6%	6%
Retirement age	60 years old	60 years old

Sensitivity analysis

Reasonably possible changes at the reporting date to the individual actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligations as at December 31, by the amounts shown below:

	Unit : Thousand Baht	
	2017	2016
Effect increase (decrease) on defined benefit obligations		
+1% discount rate	(4,669)	(4,033)
-1% discount rate	5,395	4,660
+1% salary growth rate	5,231	4,519
-1% salary growth rate	(4,627)	(3,997)
