

FRAUDSTERS COULD BE TARGETING YOU.

**TOGETHER  
AGAINST FRAUD**

## Social Engineering

Do not get tricked into sharing sensitive and personal information over social media.

### Stop

- Responding to strangers online asking you to share OTP
- Clicking on pop-up banners claiming your computer is infected
- Entertaining friendly callers from getting your personal information by gaining your trust
- Acting upon mails of messages that create urgency to take action

### Think

- Could this be genuine?
- Is it safe to share personal information with a stranger?
- Will your bank call to ask for your personal information?

### Protect

- Do not share your OTP or personal information
- Limit the information you share on any digital channel
- Create strong and complex passwords and change them frequently
- Do not download or install suspicious apps
- If you suspect that your personal details have been compromised, report it immediately to your bank

Please report fraud to your bank, in addition, please report on [www.uaebf.ae/en/fight-fraud](http://www.uaebf.ae/en/fight-fraud)

Disclaimer: Please make sure that you report fraudulent activity to both your bank and UBF.
