BNP PARIBAS - INDIAN BRANCHES

SCHEDULE 17 SIGNIFICANT ACCOUNTING POLICIES FOR FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED MARCH 31, 2014

(1) BACKGROUND

The financial statements for the financial year ended 31st March 2014, comprise accounts of Indian branches of BNP Paribas SA, which is incorporated in France with limited liability.

(2) BASIS OF PREPARATION

The financial statements are prepared and presented under the historical cost convention and on an accrual basis of accounting, unless otherwise stated and comply with the Accounting Standards notified by the Companies (Accounting Standards) Rules, 2006 (as amended) to the extent applicable and conform to the statutory requirements prescribed under the Banking Regulation Act, 1949, circulars and guidelines issued by the Reserve Bank of India ('RBI') from time to time and current practices prevailing within the banking industry in India.

(3) USE OF ESTIMATES

The preparation of the financial statements in conformity with the accounting principles generally accepted in India requires the management to make estimates and assumptions that affect the reported amounts of assets and liabilities, revenues and expenses and disclosure of contingent liabilities as at the date of the financial statements. The management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Actual results could differ from those estimates. Any revision in the accounting estimates is recognized prospectively in the current and future periods.

(4) REVENUE RECOGNITION

(i) Interest income is recognised on accrual basis except in case of non-performing assets where it is recognised upon realisation as per the RBI guidelines and in accordance with the Accounting Standard on revenue recognition.

(ii) Commission on LCs and guarantees is recognised over the life of the instrument.

(iii) Other fee incomes are recognised at the time the services are rendered and a right to receive the same is established.

(iv) The Indian branches participate in an integrated dealing room activity with its Head Office and other branches and account for its profits / losses on Derivative transactions under a Residual Profit Split method.

(5) TRANSACTIONS INVOLVING FOREIGN EXCHANGE

(i) Transactions denominated in foreign currencies are accounted at rates prevailing on the date of the transaction. Exchange differences arising on foreign currency transactions settled during the period are recognized in the Profit and Loss Account of the period.

(ii) Monetary assets and liabilities denominated in foreign currency as at the balance sheet date are translated at the rates of exchange notified by the Foreign Exchange Dealers' Association of India ('FEDAI') and the resultant gains or losses are recognized in the Profit and Loss Account.

(iii) Outstanding spot contracts and foreign exchange swap contracts in banking book are revalued at the rates of exchange notified by FEDAI, the resulting gains or losses are recognised in the

Profit and Loss Account and the swap premium is amortised to profit and loss account over the life of the contracts.

Outstanding forward exchange contracts designated as 'Trading' are revalued at the period end exchange rates notified by FEDAI for specified maturities and at interpolated rates for contracts of interim maturity (and at foreign exchange rates implied by the swap curves for respective currencies for contracts with maturities greater than 12 months), discounted to present value and the resultant profits or losses are included in the Profit and Loss account. The notional principal of these contracts is reported under 'Contingent Liabilities'.

(iv) Contingent liabilities in respect of outstanding forward exchange contracts, guarantees, acceptances, endorsements and other obligations are stated at the spot rates of exchange notified by FEDAI at the year-end.

(6) DERIVATIVE TRANSACTIONS

(i) Outstanding derivative transactions designated as 'Trading', which include interest rate swaps ('IRS'), currency swaps ('CS') and currency options are marked to market using the Present Value methodology. The resulting gains or losses are included in the Profit and Loss Account. The net unrealised gains or losses on these products are recorded in the Balance Sheet under Other Assets or Other Liabilities and Provisions.

(ii) Derivative transactions undertaken for hedging purposes are accounted for on an accrual basis, except those undertaken for hedging an asset or liability that is carried at lower of cost or market value in the financial statements. In such cases, the derivatives are marked to market with the resulting profits or losses being recorded as adjustments to the market values of the designated assets or liabilities.

(iii) Premium paid and received on options is accounted up-front in the Profit and Loss Account. The options are marked to market using the Present Value methodology and the resulting profits or losses are recognised in the Profit and Loss Account.

(iv) Amounts due to the Bank under derivative contracts which remain unpaid in cash for more than 90 days from the specified date of payment are classified as non-performing assets.

(7) INVESTMENTS

(i) Accounting and Classification

- In accordance with the extant guidelines issued by the RBI, the Bank classifies its investment portfolio into three categories viz., 'Held to Maturity', 'Available for Sale' and 'Held for Trading'. Under each of these categories, investments are further classified under six groups namely, Government Securities, Other Approved Securities, Shares, Debentures and Bonds, Subsidiaries and Joint Ventures and Others. The Bank decides the categorisation of each investment at the time of acquisition.

- All investments are accounted for on settlement date basis

(ii) **Valuation**

- Held to Maturity:

Government securities and debentures and bonds acquired by the Bank with the intention to hold them up to maturity are classified as held to maturity investments and are valued at cost. Deposits with Financial Institutions in lieu of shortfall in meeting priority sector targets are classified under held to maturity investments and valued at cost. Unquoted debentures and bonds deemed to be in the nature of an advance are valued at cost. In case the cost price is higher than the face value, such premium is amortised over the period to maturity. Where the cost price is less than the face value, such discount is ignored.

Diminution other than temporary, if any, in the value of such investments is determined and provided for on each investment individually.

- Available for Sale:

Government securities are valued at the lower of book value and market value. Market value is determined on the basis of market quotations at the year-end published by Fixed Income Money Market and Derivatives Association of India ('FIMMDA').

Unquoted debentures and bonds, other than those deemed to be in the nature of an advance, are valued on the yield to maturity basis in accordance with the methodology specified by the RBI guidelines.

Net depreciation if any, in any of the classification mentioned in Schedule 8 'Investments' is recognized in the Profit and Loss account. Net appreciation under each classification is ignored.

Discounted instruments are valued at carrying cost. Discount accrued on these are reported under 'Other Assets – Interest Accrued'.

- Held for Trading:

The individual scripts in the Held for Trading securities are marked to market at monthly intervals. Net depreciation under each classification, if any, is provided for; net appreciation, if any, is ignored.

(iii) **Transfer between categories**

Transfer of securities between categories of investments is carried out in accordance with the RBI guidelines and accounted for at the lower of the acquisition cost, book value and the market value on the date of transfer and depreciation, if any, on such transfer is fully provided for.

(iv) **Profit or loss on sale / redemption of investments**

- Held to Maturity:

Profit or loss on sale/redemption of such investments is included in the Profit and Loss Account. Profit, if any, after being adjusted for tax and statutory reserve transfer, is thereafter appropriated to the Capital Reserve.

- Available for Sale and Held for Trading:

Profit or loss on sale/redemption of such investments is included in the Profit and Loss Account.

(v) **Repurchase and Reverse Repurchase transactions**

Repurchase (Repo) and Reverse repurchase (Reverse repo) transactions are accounted for as collateralised borrowing and lending transactions respectively with an agreement to repurchase on agreed terms in accordance with RBI guidelines. The difference between the clean price of the first leg and the clean price of the second leg is recognized as interest income / expense over the period of the transaction in the Profit and Loss account.

Repurchase and reverse repurchase transactions with the RBI under the Liquidity Adjustment Facility are accounted for as secured borrowing and lending transactions.

(vi) Separate queues are followed for trading and non-trading securities per intention at inception of the transaction. In case of an inefficiency of a hedge, where underlying is an investment, the hedging strategy is unwound. Consequently, the hedged investment is reclassified to Available for Sale category.

(8) ADVANCES

(i) Advances are classified as performing and non-performing based on prudential norms for income recognition, asset classification and provisioning issued by RBI. Interest on non-performing advances is recognized in the profit and loss account on realization.

(ii) Advances are net of loan loss provisions, provisions for impaired assets, ECGC claims and bills rediscounted.

(iii) Loan loss provisions in respect of non-performing advances are made based on management's assessment of the degree of impairment of the advances, subject to the minimum provisioning level in accordance with prudential norms prescribed by RBI.

(iv) General provision for loan losses on standard assets @ 0.25% to 2.00% is made on the various classes of standard assets as prescribed by RBI. Such provisions are reflected under "Other liabilities and Provisions" and are not considered for arriving at Net NPA's.

(9) FIXED ASSETS AND DEPRECIATION

(i) Fixed assets are stated at cost less accumulated depreciation, provision for impairment and adjusted for any revaluations as ascertained by the Management. The carrying amount of fixed assets is reviewed at each Balance Sheet date for any indication of impairment based on internal/external factors. Impairment loss on a revalued asset is recognised directly against any revaluation surplus of the asset to the extent that the impairment loss does not exceed the amount held in the revaluation surplus for the same asset. In case of revalued / impaired assets, depreciation is provided over the remaining useful life of the assets with reference to revised asset values / lives.

(ii) Depreciation on premises is provided at 2.05 per cent per annum on a straight-line basis. The difference relating to the revalued component is transferred from the Revaluation Reserve to the Profit and Loss Account.

(iii) Expenditure incurred on improvements to owned premises is depreciated over a period of 10 years on a straight-line basis.

(iv) Improvements to Leasehold premises are depreciated over the primary period of the lease, subject to a maximum of 10 years.

(v) Depreciation on cars is provided at 20 per cent per annum on a straight-line basis.

(vi) Depreciation on computers is provided at 33.33 per cent per annum on a straight-line basis.

(vii) Depreciation on software is provided based on the useful life of the software or five years whichever is lower, on a straight-line basis.

(viii) Depreciation on furniture and fixtures is provided at 8.33 per cent per annum on a straight-line basis.

(ix) Depreciation on plant and machinery and office equipment is provided at 12.5 per cent per annum on a straight-line basis.

(x) Depreciation on mobile phones is provided at 50 per cent per annum on a straight-line basis.

(xi) Assets costing less than Rs. 5,000 are fully depreciated in the year of purchase.

(xii) The above rates are reflective of the Management's estimate of the useful lives of the related fixed assets subject to the minimum rates of depreciation prescribed in Schedule XIV to the Companies Act, 1956.

(10) LEASES

Finance leases, which effectively transfer to the Bank substantially all the risks and benefits incidental to ownership of the leased item are capitalised at the lower of the fair value or present value of the minimum lease payments at the inception of the lease term and disclosed as fixed assets. Lease payments are apportioned between the finance charges and reduction of the lease liability based on the implicit rate of return. Finance charges are charged directly against income.

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased item are classified as operating leases. Operating lease payments are recognised as an expense in the Profit and Loss Account on a straight-line basis over the lease term.

(11) EMPLOYEE BENEFITS

The Bank has created separate recognised funds for Provident Fund, Pension and Gratuity.

Provident Fund
Contributions to the Bank's Provident Fund, which is a defined contribution scheme, are accounted for on accrual basis and recognized in the profit and loss account.

Gratuity and Pension
Gratuity and pension schemes are defined benefit plans. The net present value of the Bank's obligation towards the defined benefit plans is actuarially determined based on the projected unit credit method as at the Balance Sheet date. Actuarial gains and losses are immediately recognised in the Profit and Loss Account.

Compensated Absences

Liability for compensated absences for employees is provided on the basis of an actuarial valuation carried out at the Balance Sheet date.

Deferred Bonus

The Bank accounts for its defined benefit obligations for non-funded deferred bonus benefits on the basis of an independent actuarial valuation as per the projected unit credit method made at the end of each financial year.

Employee Share Based Payments

The eligible employees of the Bank have been granted stock awards under various plans, of equity shares of the ultimate holding company, BNP PARIBAS SA, France. As per the various plans, these stock awards vest in a graded manner up to five years. During the year the Bank has charged an amount pertaining to these costs under the head "Payments to and provisions for employees" as compensation cost.

Other employee benefits are recognised based on the likely entitlement thereof.

(12) INCOME TAXES

Tax expense comprises of current and deferred tax. Current income tax is measured at the amount required in accordance with the Income Tax Act, 1961 and applicable laws and rules thereunder. Deferred tax assets and liabilities for the year, arising on account of timing differences, are recognised in the Profit & Loss Account and the cumulative effect thereof is reflected in the Balance Sheet.

Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the Balance Sheet date.

Deferred tax asset is recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax asset can be realised. In situations where the Bank has unabsorbed depreciation or carried forward losses, deferred tax assets are recognised only if there is virtual certainty that sufficient future taxable income will be available to realize these assets.

Deferred tax assets are reviewed at each Balance Sheet date and appropriately adjusted to reflect the amount that is reasonably / virtually certain to be realised.

(13) PROVISIONS AND CONTINGENCIES

A provision is recognised when the Bank has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to their present values and are determined based on best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates.

Contingent liabilities are disclosed when there is a possible obligation or present obligation that may but probably will not require an outflow of resources embodying economic benefits. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Contingent assets are not recognised or disclosed in the financial statements

(14) IMPAIRMENT

(i) The carrying amounts of assets are reviewed at each Balance Sheet date if there is any indication of impairment based on internal/external factors. An impairment loss is recognised wherever the carrying amount of an asset exceeds its recoverable amount.

(ii) After impairment, depreciation is provided on the revised carrying amount of the assets over their remaining useful lives.

(iii) A previously recognised impairment loss is increased or reversed depending on changes in circumstances. However, the carrying value after reversal is not increased beyond the carrying value that would have prevailed by charging usual depreciation if there was no impairment.

(15) CASH AND CASH EQUIVALENTS

Cash and cash equivalents include cash in hand, balances with RBI, balances with other banks and money at call and short notice.

(16) SEGMENT REPORTING

The Bank operates in three segments viz. Treasury, Corporate and Wholesale Banking and Other Banking Operations. These segments have been identified in line with AS-17 on segment reporting after considering the nature and risk profile of the products and services, the target customer profile, the organization structure and the internal reporting system of the bank.

Segment revenue, results, assets and liabilities include the amounts identifiable to each of the segments as also amounts allocated, as estimated by the management. Assets and liabilities that cannot be allocated to identifiable segments are grouped under unallocated assets and liabilities.

(8) DISCLOSURE ON RISK EXPOSURE IN DERIVATIVES

(i) Qualitative Disclosures:

The structure and organisation for management of risk in derivatives trading:

There are business line and market risk limits governing the derivative trading activities. The activities/ products that the Bank may undertake as well as the fixing of the limits for the same are determined through a comprehensive process involving the Management, legal, operations, IT and risk functions. Advanced front office and market risk systems are in place to monitor the positions and compliance with various risk limits. There is a clear segregation of the front office, market risk monitoring and control and the back office functions relating to transactions in derivatives.

The scope and nature of risk measurement, risk reporting and risk monitoring systems:

Appropriate parameters such as PV01, GEaR, issuer risk and counterparty credit risk exposure are used for risk measurement through sophisticated systems. These cover all products and activities in derivatives. There is a system of regular reporting of positions and risks to the Management. Further there is a system of identifying and reporting exceptions to the Management.

Policies for hedging and / or mitigating risk and strategies and processes for monitoring the continuing effectiveness of hedges / mitigants:

The Bank uses appropriate hedging instruments to hedge / mitigate risks both in the banking and trading books. The effectiveness of the hedge is monitored periodically. The accounting policy for recording derivative transactions is in place which includes recognition of income and the treatment of gains / losses on cancellation / termination of contracts.
